VOLUME 14, ISSUE 2

SEPTEMBER 2023

Dear Parents and Students,

As we step into the second month of this Academic session, we would like to thank you all for your cooperation during the Commencement Week. Nothing brings us more joy than our corridors filled with laughter and children singing their favourite rhymes. August ended with the sad demise of our beloved Ayesha Islam. Our thoughts and prayers go out to the bereft family. Life is full of ups and downs. We will have good days and bad days, but we want our students to see the silver lining to that. We plan on celebrating Gratitude Day in September - to help instill the feeling of gratification and learn that there is always something to be thankful for! We have planned various age-specific activities across Pre-Play to Class 10 to celebrate the day. Besides Academics taking a full peak, the other activities such as ECAs, Round Square conferences, Mufti days and National day celebrations are also back on.

Keeping up with the theme of this year, 'One Planet, One Future,' we look into practices that would help the environment. We look forward to your support in our efforts to instill environmentalism in our students. Let us all do our part to conserve our precious Earth.

Regards,

Ridwana Ali

Head of CGSD Elementary

FIRST DAY OF SCHOOL

Groups of students are seen hugging their teddy bears on the first day of school, above and below.

AYESHA ISLAM - 23.9.2011 – 22.8.2023

It is with profound sadness that we announce the passing of Ayesha Islam, a cherished student of Class 6S. Ayesha's warm smile, enthusiasm, and bright spirit will be dearly missed by all who knew her.

During this difficult time, we extend our heartfelt condolences to Ayesha's family, friends, classmates, and teachers. We come together as a community to offer our support, love, and strength to one another.

May her spirit forever inspire us to cherish life and each other.

GREEN GENIUS COMPETITION

CGSD recently participated in Green Genius 04 organized by Green Planet Club, Independent University, on the theme being 'Warming Cities, Sustainable Living.' 3 CGSD students were finalists, pictured above at the prize giving ceremony.

I AM GRATEFUL!

Take the gratefulness survey and try to win the 'best answer' for your class! Survey link: survey.cgs.edu.bd

OXFORD UNIVERSITY SUMMER CAMP

CGSD and CGS teams pictured right in Oxford University at the recent summer camp.

CGSD is proud of our 3 young scholars who embarked on a journey of knowledge and exploration of Oxford culture and heritage through the Oxford-London Summer Program in July. Students attended lectures from various speakers, who are currently active in their respective fields, ranging in different subjects including Science, Social Science, Literature, Law at Imperial College, London and at St. Anne's College, Oxford. They took part in debate and practiced public speaking at the Oxford Union and attended university admission counseling sessions. They enjoyed excursion trips to several Oxford colleges, well known museums of London and Oxford and experienced punting on Cherwell river, a popular summer activity in Oxford.

Congratulations Muhammad Mahdi Marzan, Zainah Ifia and Anmay Zahin Iqbal!

CALENDAR OF EVENTS

DATE

Janmastami	6.9.2023
Awards for Classes 3 to 10	9.9.2023
World Gratitude Day Mufti	21.9.2023
Eid-e-Miladun Nabi*	28.9.2023

Class Notes: Class 7 September 2023

Happy Birthday to...

Adib for the 1st and Uzayr for the 25th of September.

Class News...

Welcome back to school! After a relaxing summer break, the 2022-23 session has commenced physically from 06th August, 2023. We would like to express our appreciation to the parents who were a part of the Parents' Induction held on 19th August, 2023. It is important to note that from this month onward, academics will slowly pick up pace and students will start to get the flavour of assessments. We believe our students have been enjoying the ECA and going forward it will be more engaging and productive for them. We request you to go through the monthly newsletters regularly to stay updated about upcoming activities and programmes. Together, we will make this school year one of growth achievement for all our students. Last but certainly not least, congratulations to the O Level examinees of 2022-23 for a job well done!

Warmest regards,
Class 7 Teachers

September Project...

Science: Chemistry- Kinetic Particle Theory

Physics- Electrical Circuit

Geography: Components of Human Environment
