JUNE 2024

Dear Parents,

Following a period of intense heat extending from late April through the first week of May, our school has been bursting with activity. We kicked off a partnership with WISH (Wellbeing in School and Higher Education), implementing a meticulously crafted strategy aimed at bolstering social and emotional skills of our students through weekly sessions led by the WISH team. Additionally, focus group sessions (pictured below left) on Climate Change and Sustainable Development were held for students in Classes 3 through 8, led by Ms. Amina Mahmood, Director of Environmental Programmes at CGS and CGSD.

As we go into print, our delegates are preparing to travel to the Round Square conference at Samworth Academy in the UK which will be followed by an extended stay for sightseeing. Furthermore, a Fire Training session conducted by the Fire Service department provided essential guidance on fire safety protocols for all staff, accompanied by evacuation drills for both students and staff.

As a forward-thinking institution, we recognize the importance of continuous learning and skill development. Consequently, regular training sessions are held for all our teachers. Recently, Elementary teachers benefited from an enlightening session on "Phonemic Awareness" led by Ms Mona Qaiser. I had the privilege of participating in a training on Cambridge Primary Maths conducted by Marshall Cavendish. We remain committed to staying abreast of the latest educational practices to effectively engage with the current generation of learners.

Wishing you a safe and joyous Eid.

Eid Mubarak!
